Sam Langford, the dusky heavy-weight, who has been following Jack Johnson about the country for a match, made short work of Nat Dewey at Cheyenne, Wyo., recently. No one ever heard of Dewey in these parts before but he was thought to be a world beater out in that country. After Langford defeated him in one round the followers

Should Flynn succeed in defeatimmediately become a candidate for championship honors.

If confidence was all that was necessary to settle the dispute between Jack world's heavy weight championship, then Johnson would stand a splendid that Jeffries is just as confident that he will be returned the winner on July next, that it takes away some of Jack's enthusiasm. Johnson put in a week in Milwaukee and did many miles on the road, but mostly in his automobile. The negro champion was not given to boasting at all, but was very conservative in sizing up his opponent-

I have been measured thoroughly by Dr. Sargent of Harvard and given every test possible and he tells me that I am almost perfect as regards physical development, and that I am just as strong as Jeffries. I know Coulon has always been a claimant to as well as anyone that Jeffries will be the bantamweight championship, but Johnny demands 115 pounds ringside, Tommy Burns or Stanley Ketchel, and I would be foolish to say that he will not do as well as they dld. Now I always are when the delegates get together had a great deal of respect for Jeffries and looked upon him as a wonder ful fighter, but to tell the truth I do the bantamweight limit will no doubt be not think he is as good now. He may be able to come back in the best of shape, but you will find that when it comes to a case of stamina and ability to recuperate he will not be there. That was proved in the case of Battling Nelson against Ad Wolgast. Nelson used to be there with the come-back no matter how hard he was pressed, but after Wolgast had fought him to a standstill the Battler did not have the reserve power any more, and that is just what will happen to Jeffries-he will not be able to recuperate when his strength begins to leave him.

They say Jeffries weighs 225 now, but I know he is nearer 245, and he of Dewey no doubt changed their minds will no doubt fight at about 215 to about the championship aspirations of | 220.
